Re: FORWARDING SUPPLEMENTAL DECLARATION

U.S. Reissued Patent Application No. 09/374,598 based on

U.S. Patent No. 5,657,600

Filed: August 13, 1999

Titled: **WEB MEMBER FOR CONCRETE FORM WALLS ("X Web Reissue")**

Inventors: Jan Hendrik MENSEN

Our Ref: 2039279-5013RE

Dear Mr. Mensen:

I am the patent attorney appointed by Arxx Building Products, Inc. (formerly AAB Building Systems, Inc.) to prosecute your above-referenced reissue application with the United States Patent and Trademark Office (USPTO). As you may recall, the above-reference reissue application was filed with the USPTO on August 13, 1999 to correct an error in U.S. Patent No. 5,657,600 (the "600 patent") in that it claimed less subject matter than what it was entitled to. I have enclosed a copy of the original reissue application papers (the '600 patent, preliminary amendment, and original reissue declaration by the inventor signed by you) as filed on August 13, 1999, if necessary.

To date, the Examiner has indicated that the claims presented in the enclosed third supplemental amendment and response ("supplemental amendment") are in condition for allowance. However, since additional claim amendments have been made after the date of filing the reissue application and the original reissue declaration signed by you, the Examiner has requested the submission of a supplemental declaration for reissue application ("supplemental declaration"), which must be signed by you prior to allowance of the reissue application.

As you will note, the supplemental declaration states that every error which was corrected in the reissue application not covered by the original reissue declaration submitted in the application arose without any deceptive intention on part of the applicant. Accordingly, I kindly ask that you review the original reissue application papers and the supplemental amendment, sign and date the supplemental declaration and return to me via facsimile (703-712-5240) or Don Blewett at Arxx within two weeks.

e-mail attachment dated - July 26, 2007

To CEO Arxx

Due to the vacation season and being out of the office my reply is a little later than requested.

After evaluating your request I have calculated that a compensation of Cad \$ 138.000,-- would be appropriate to ask for, as you have received large lump sums of money in the past for selling little parts of the patent to Logix about 2 years ago.

The new updated patent will provide more protection against infringing which will be rewarding in the future. Maybe now it's also the right time to update the "web" especially the fixation part of the re-inforcement steel bars.

Please let me know you thoughts regarding this

Henk Mensen

Re: Reissue of ARXX Building Products US Patent No. 5,657,600

Dear Mr. Mensen:

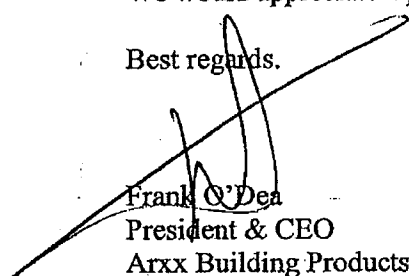

This is in response to your email letter of July 26, 2007 concerning our request that you sign the supplemental declaration provided with our counsel, Richard Meyer's letter of May 30, 2007.

Your request for \$138,000 (CA) is unreasonable and inconsistent with your obligations under Canadian law as a former director and officer of the Company. Moreover, you previously assigned all your rights in this patent to the Company, which has paid significant compensation to you over the years.

We are, however, willing to offer you reasonable compensation in form of a reasonable hourly consulting rate to compensate you for spending a reasonable amount of time to review and execute the papers forwarded with Mr. Meyer's letter.

We would appreciate a prompt response to this letter.

Best regards,

Frank O'Dea

Reply to letter from Arxx Building Products Inc. dated 12.12.2007 regarding Patent
Nº 5,657,600, which was only received by courier.

Dear Mr. Frank O'Dea,

I have given your reply considerable thought and the content of your letter surprised me. I was never an officer or director (only shareholder) after Horatio bought 50% of the company. Also the remark that the company has paid significant compensation to me over the years is to my opinion incorrect. I received the loan, interest and share value as other shareholders did.

In reality I had more aggravation and undermining my business attempts from Arxx members when starting up my company here in Europe.

I will be in Cobourg for other business mid March and if you are interested I could make myself available for a meeting.

Please let me know.
Best regards

FORWARDING SUPPLEMENTAL DECLARATION

U.S. Reissued Patent Application No. 09/374,598

Inventors: Jan Hendrik MENSEN

Re: Meeting Between Scott Jaglowitz and Henk Mensen at Arxx Building Products, Cobourg, Ontario March 20, 2008.

Through his wife Mr. Mensen made arrangements to meet with Frank O'Dea. The day of the meeting Frank was unavailable and requested Scott Jaglowitz take the meeting. Michelle Evans attended to take minutes.

In May of 2007 a patent Examiner requested a Supplemental Declaration for Reissue Patent Application to correct "Errors" Statement (37 C.F.R. 1.175) in relation to the above mentioned patent. The declaration had to come from the inventor Jan Hendrik Mensen. Arxx contacted Mr. Mensen by letter twice in 2007 and requested he sign the declaration. Mr. Mensen in turn declined and requested monetary compensation in exchange for his signature on the declaration.

In March of 2008 Mr. Mensen met with Scott Jaglowitz, VP Finance at the Arxx head office in Cobourg. Scott requested that Mr. Mensen sign the declaration and Mr. Mensen explained that he felt he was entitled to compensation from Arxx with regard to past dealings. Scott asked Mr. Mensen if he has incurred any personal expenses in relation to the patent since he assigned it to Arxx. Mr. Mensen agreed he had not incurred any expenses relating to the patent. Scott offered to compensate Mr. Mensen for his time and trip to Canada if he would sign and indicated he was authorized to offer him \$15,000.00. Mr. Mensen verbally refused the offer and stated that he felt he was owed at least \$100,000.00 from Arxx and would not sign unless Arxx offered him an amount in the \$100,000 range.

Scott Jaglowitz, VP Finance
